

Step 1 - Fill out the application

Every Adoption starts with an Application! Please direct any interested parties to our website to fill out an application. We want to be sure the potential adopters pass our screening process **prior to any meet and greets being scheduled!**

Step 2 - Application verification/vetting

We will reach out to the potential adopter, verify their references and application, and let you know who to schedule the meet and greet with. You can be as involved in this process as you'd like! We **love** getting our foster's input on who would be the best fit if we have multiple applications to choose from!

Step 3 - Meet and Greet

Please schedule the meet and greet as soon as your schedules allow! We find that the later this happens, the more likely the person is to lose interest. We prefer all family members, human and canine, be present at the meet and greet to ensure the best fit! If the meet and greet goes well, they can take the pup home with them at the end to start their trial, but **please email us to let us know the pup is in the care of someone else.**
northwestwagrescue@gmail.com

Step 4 - Trial Period

Once you've let us know the potential adopting family is taking the pup home, the 10-day trial starts. We ask all adopters to trial the pup for a minimum of 7 days before deciding if the pup isn't a good fit. Please feel free to keep in communication with the family if you'd like, but any questions can be directed to us via email. Please do not feel the need to continue to text/talk with anyone asking questions you're uncomfortable answering. Direct them to contact us via email! northwestwagrescue@gmail.com

Step 5 - Adoption

If the trial is successful, the adopting pawrents need to email us to finalize the adoption!
